

Rock Solid

John and Rachel of Forte Stone with their children Kaio and Livia

At Forte Stone, picking out the perfect stone for your kitchen or bath is like walking down the candy aisle at the grocery store, with every imaginable color and texture of stone you could dream up: rich greens, blues, golds, and greys, all imported from the most exotic quarries in the world. With so many choices, you are bound to find that perfect stone that ties everything in the room together.

John Tuttle and Rachel Forte-Tuttle opened Forte Stone in 2003, serving customers throughout the entire central coast with the finest classic and exotic stones available. It all started when Rachel left her native Brazil to study as an exchange student in Santa Barbara. John was attending Westmont College and the two ended up meeting at Butterfly Beach, and the rest is, well... history.

John and Rachel are proud to be personally involved with the needs of each customer. From the moment you meet them, it is obvious why homeowners keep coming back to Forte Stone.
